- Dirk Labudde, *Bioinformatics and Forensics, HSMW, Germany*
- Thomas Villmann, *Computational Intelligence and Technomathematics, HSMW, Germany*

THEMES

PTBI Symposium 2017 seeks submissions that are relevant to the following themes

- comparative genomics and gene classification
- prediction and evaluation of protein and RNA structures
- protein-protein and protein-RNA interactions
- biomolecular sequence analysis
- modeling and prediction of gene patterns
- microarray data analysis
- metabolic network modeling and examination
- genetic networks
- mass spectrometry data analysis
- phylogenetics
- analysis of genetic variations
- systems biology
- and other related topics
